We are looking for Australian based Mine Surveyors who use Gemcom Surpac in their daily work to help us better understand our product offering and how that fits with your requirements. We have selected you because we believe you fit this criteria, but if not, please accept our apologies and either delete this email, or pass to someone in your organisation who you believe fits the criteria.

We would really appreciate it if you would participate in our survey. This should take around five minutes of your time and by providing your name at the end, you will enter the draw to win a \$100 Myer voucher.

We recognise that a large number of our surveying customers have not upgraded to the latest version of the software and we really want to understand the reasons why this has happened. Please note: you do not need to be a maintained customer of Gemcom to complete the survey.

Please click on the link below to complete the survey.

If you have any questions about the survey and the way in which we will use the results then please contact me either by email or by calling 08 9420 1336.

We do appreciate your continuing support,
