Practical GPS Post Processing Course

CPD Points 7

Haefeli-Lysnar are presenting 1 day Practical Post Processing training courses on Wednesday the 16th, 18th, 23rd and 25th of June 2009 at their 28 Hasler Road Osborne Park office.

This practical course steps through all the requirements to carry out a successful GPS static post processed survey.

Start 8.00am

Module 1: Introduction to GPS Post Processing which covers the theory behind static and fast static surveying and the differences between RTK including accuracy differences and when to use.

Module 2: Mission planning and network design.

Morning Tea 10.00am to 10.15am

Module 3: Field work. Perform a fast static survey.

Lunch 12.30pm to 1.00pm

Module 4: Baseline Processing and troubleshooting techniques using Trimble Geomatics Office and the new Trimble Business Centre.

Module 5: Network Adjustment including minimally constrained and fully constrained networks.

Finish 4.30pm

Cost \$250 per person

For further information or to book your place as seats are limited please contact Brad Gray on (08) 9445 8811 or email brad@hlsolutions.com.au
